main.c   Run   Output

```c
1  #include<stdio.h>
2  void main()
3  {
4      float h, m;
5      float hit_ratio;
6      printf("enter the no of hits:");
7      scanf("%f",&h);
8      printf("enter the no of miss:");
9      scanf("%f",&m);
10     hit_ratio=h/(h+m);
11     printf("to do hit_ratio is %f",hit_ratio);
12     return 0;
13 }
```

```
/tmp/H0jaT7J7Bq.o
enter the no of hits:10
enter the no of miss:12
to do hit_ratio is 0.454545
```
